

LG Voyager Keypad Replacement

This guide will help you repair your keypad if you are experiencing difficulties with the keys sticking.

Written By: Faizah Butt

INTRODUCTION

If you are having issues texting or navigating with your keypad, it might be necessary to replace your old keypad with a new one.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Keypad

- Remove all 4 screw covers from each corner on the back cover.

Step 2

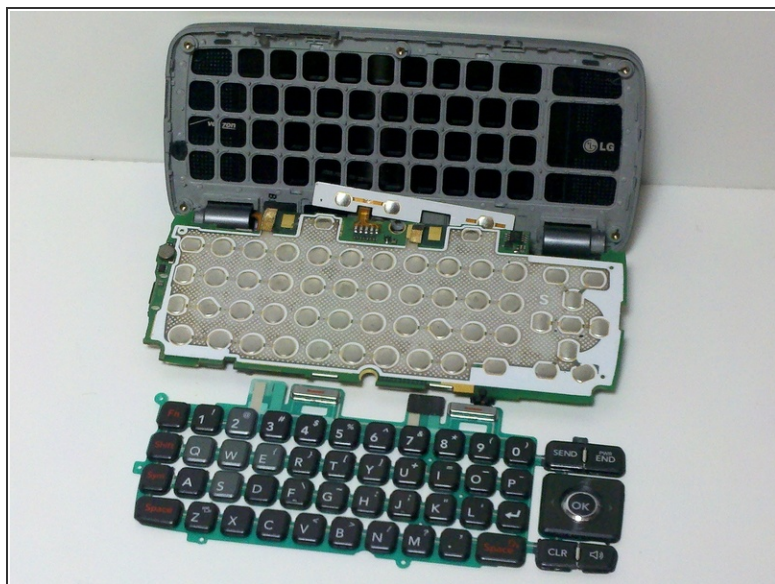

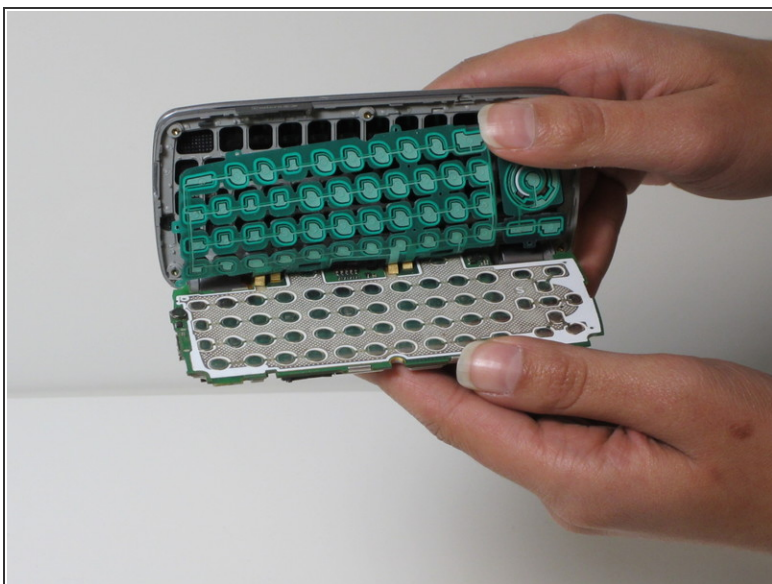

- Unscrew all 4 screws from the back cover of phone.

Step 3

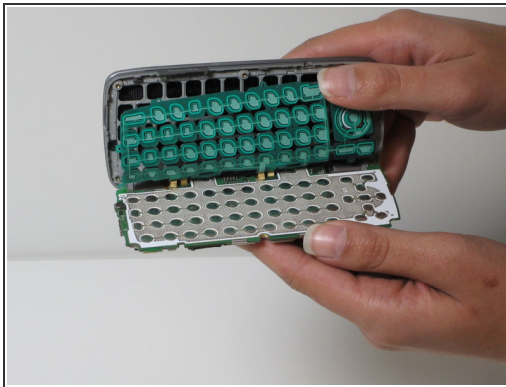

- Hold open.

Step 4

- Pull rubber keyboard off carefully.
- NOTE: Be sure not to remove the silver button panel below the keyboard

Step 5

- Align the keyboard with four gold tabs at the top of the keyboard.

To reassemble your device, follow these instructions in reverse order.
